

LARGE-SACK FILLER

- EASY TO ADJUST
- EASY TO ADAPT

OPERATION

The large-sack filler from Sweden Power Chippers is an automatic large-sack filler for super sized sacks up to at least 1 500 litres.

It has volumetric filling and automatic change of sacks for no interrupted work on filling customer requested bags.

It is available in different sizes, from two sacks to unlimited choices using serial connections between several sack fillers.

The large-sack filler can be delivered with several options such as extra screening for dust free delivery and weight controlled filling with individual sealing of each bag.

TECHNICAL DATA

CONVEYER BELT: 150 mm conveyer belt with controlled opening and closure of sack.

BAGS: Normally 4 bags for 1000 liters/bag
